EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kirk Wolfgram on 02 February 2005.

The application has been amended as follows:

Specification:

Page 11, line 12 of second paragraph, "placed on the ground in" was changed to -placed on the ground surface in--

Page 11, line 14 of second paragraph, "placed on the ground also in" was changed to -placed on the ground surface also in--

Page 11, line 14 of second paragraph, "to repel the animal." Was changed to --to repel the animal. The ground surface in this application is intended to include low laying vegetation and displaced soil that may cover portions of the wire.--

Claims:

Claim 1, line 5, "a ground terminal" was changed to --a ground-terminal--

Claim 1, line 6, "to the underlying ground system;" was changed to --to an underlying ground system;--

Claim 1, line 8, "and two" was changed to --two--

Application/Control Number: 10/753,228

Art Unit: 3643

Claim 1, line 9, "generator for connection to a separate un-insulated electrical conductor

placed in contact with the ground for the purpose of deterring animals." Was changed to

--generator connected to a separate un-insulated electrical conductor placed directly on

a ground surface for the purpose of deterring animals; and a step-up transformer,

wherein output impedance of the step-up transformer is less than 100 ohms and

optimally greater than 2 ohms.--

Claim 4, line 1, "the energy" was changed to --energy--

Claim 8, line 5, "and two" was changed to -two--

Claim 8, line 6, "generator for connection to separate un-insulated electrical conductors

placed in contact with the ground for the purpose of deterring animals." Was changed to

--generator connected to separate un-insulated electrical conductors placed directly on

a ground surface for the purpose of deterring animals; and a step-up transformer,

wherein output impedance of the step-up transformer is less than 100 ohms and

optimally greater than 2 ohms .--

Claim 11, line 1, "the energy" was changed to --energy--

Allowable Subject Matter

Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance:

Patent 2,899,174; US Patent 2,512,740; US Patent 5,302,945; US Patent 5,877,949 US

Patent 6,020,658; US Patent 4,859,868; and US Patent 5,790,023 teach electric animal

deterrents for use with a power source with high voltage pulse generators; timing

mechanisms; ground terminals; and electrical conductors. The prior art of record all

fails to show, and fails to make obvious, either alone and/or in combination the high

voltage output terminal also connected to the output of the high voltage pulse generator

connected to a separate un-insulated electrical conductor placed directly on a ground

surface for the purpose of deterring animals; and step-up transformer, wherein output of

the step-up transformer is less than 100 ohms and optimally greater than 2 ohms.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrea M. Valenti whose telephone number is 703-305-3010. The examiner can normally be reached on 7:30am-5pm M-F; Alternating Fridays Off.

Application/Control Number: 10/753,228 Page 5

Art Unit: 3643

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter M. Poon can be reached on 703-308-2574. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
